A fun, satisfying homage to John Carpenter's The Thing. It's very short (less than an hour and a half) but definitely worth your time.. ah yes, a throwback to the good old days of adventure gaming when you had to constantly take au2665u2665u2665u2665u2665u2665in order to not die of NOT BEING CLEAN, yes. and where it's impossible to walk past people so if they randomly happen to walk in front of the doors you will be killed by a monster since you can't leave. good game design. the monster transforming effects are cool though.. ah yes, a throwback to the good old days of adventure gaming when you had to constantly take au2665u2665u2665u2665u2665u2665in order to not die of NOT BEING CLEAN, yes. and where it's impossible to walk past people so if they randomly happen to walk in front of the doors you will be killed by a monster since you can't leave. good game design. the monster transforming effects are cool though.. I died because you can't carry a weapon and a computer program tape at the same time, and you can't escape a room with one door. Very realistic..
